Security Training Report 2024

Course Completion

Our courses were taken 125,762 times in 2024, by around 90,000 unique users. 2770 people have taken 7 short technical courses and earned the White Belt Security Expert badge. 1784 have taken another 7 and earned the Yellow Belt badge. The Orange Belt will be available in 2025.

98.56% of technical staff have complete the Oracle Software Security Assurance course, exceeding the target of 90%.

User Feedback

People find our courses engaging, relevant and informative. 97% of users found our courses relevant and 74% agree strongly that they would recommend the course to peers. More than 70% of people who take any of our short technical training courses, go on to take more courses.

OCI leadership thanked us for creating engaging and efficient security training for OCI. The new course covers the relevant information more concisely, bringing estimated annual savings of $4,041450.

New Work

In 2024, Global Product Security created 5 new courses, updated 7 existing courses and updated 8 specializations (curated learning paths). We also set up a security training steering committee.

Couse name	Completions	GPS Activity in 2024
Oracle Software Security Assurance Refresher	63844	Updated
Oracle Software Security Assurance	17752	Updated
PCI Secure Coding Training	10480	Updated
OCI Secure Code Training	5914	New
How a Hacker Thinks	4772	Updated
Security Tools	2953	No change
Assessing the severity of vulnerabilities	2902	No change
Security Basics	2788	No change
Basic crypto	2131	Updated
Access Control	2087	No change
OWASP Top 10	1915	No change
Java Deserialization	1395	Updated
Secure Design Review	1231	No change
Source code protection	1182	Updated
Protecting against malicious inputs	1160	Updated
Configuring TLS Securely	1118	No change
Architectural Risk Analysis	1095	No change
Hardening Kubernetes	991	No change
FIPS 140 at Oracle	52	New
